THE MUNICIPAL TRAMWAYS
TRUST, ADELAIDE.

Star Wheels for Type K Controllers

Cat. No. 112059

Cat. No. 206286

Cat. No. 206303

Cat. No. 224190

Cat. No. 821020P7

Full Lines Show Changes Made

The design of these star wheels has been changed as shown by the illustration. The catalogue numbers, however, remain the same. The following features are embodied in this improved starwheel:

1. It insures a definite position for main cylinder in OFF and FULL ON positions, independent of stop on cap plate and emergency stops in controller. In each of these positions the stop on handle should just make contact with the stop on cap plate.
2. It provides an emergency stop in OFF and FULL ON positions independent of stops on cap plate.
3. It prolongs the life of the main star wheel, pawl, and hinge pin, by preventing roller from coming in contact with the emergency stop during normal operation.

The operation of controllers now in service, using the old design star wheels, will be improved by installing star wheels of the new design. All future replacement orders will be filled with this improved star wheel.

General Electric Company, Schenectady, N. Y.
